Our Group

Enercon Group is driven by three keywords:

Fresh - Green - Energy

Enercon Group of Companies :

- Enercon Solar Energy Systems & Components Trading LLC - Dubai, UAE
- Enercon Industries LLC - Dubai, UAE
- Enercon Trading LLC - Dubai, UAE
- Sahaal Power & Projects Pvt Ltd - Chennai, India
- VAPU Exports & Imports Pvt Ltd - Chennai, India

ENERCON

Our Products

We, at Enercon are constantly evolving & improving our solar products includes Modules, Inverters and Accessories, and striving hard to increase our capacity in manufacturing, installation and services every day.

We are specilaized in all types of green energy projects and we undertake roof-top and ground mounting solar installation projects caters to domestic, commercial and industrial installation of solar power generation.

We are one of the leadig supplier of solar energy products - Solar Panels, On-grid & Off-Grid Inverters, Mounting Systems and Solar Batteries.

Solar Panel Racks

Roof/Flood type mounting rack including complete fittings and alumimium alloy.

Our Projects

**Proposal for 3.00 MWac (3.20 MWdc)
Solar PV Power Plant
- Concept to Commissioning – Reg.,**

Why Us ?

SAHAAL POWER PROJECT PRIVATE LIMITED (SPPL) is a 360o SOLAR Solution Provider with expertise in all aspects of Project Consultancy, Pre-feasibility Analysis, Detailed Project Report, Financial Advisory Services, Arranging Debt & Equity, Statutory and Non-statutory clearances and liaising with Electricity Board & other Government Bodies, Site Supervision during construction, Consultancy for Carbon Solutions and REC mechanism of Utility Scaled Projects, Rooftop/Off-grid Solar Photovoltaic Solar Power Projects along with other RE Projects.

SPPL is focused on bringing the best green energy technologies available in the world, for its varied projects – with the intent to reduce carbon footprint and create sustainable energy solutions.

SPPL's core areas of technology partnering are as diverse as the solutions themselves, and each solution is specifically tailored to address a 'best fit' situation

Rajasthan

(4,767.50 MW)

Karnataka

(3,364.99 MW)

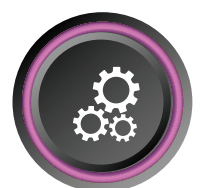

Andhra Pradesh

(2,814.80 MW)

Maharashtra

(2,171.46 MW)

Telangana

(1,957.20 MW)

Renewable Energy Prospects In India :

India is ideally located to be the solar power capital of the world. The country receives solar radiation almost throughout the year, which amounts to 3,000 hours of sunshine. This is equal to more than 5,000 trillion kWh. Among the Indian states, Andhra Pradesh, Bihar, Gujarat, Haryana, Madhya Pradesh, Maharashtra, Orissa, Punjab, Rajasthan, and West Bengal have great potential for tapping solar energy. India's per capita energy consumption currently stands close to one-third of the world average. Hence, India will have to increase its per capita energy consumption by at least 2.5 times.

The Union Budget 2021 has allocated exclusive funds to expand renewables, especially solar and green hydrogen. The government has committed to providing INR 1.97 trillion over the next five years to provide for high-efficiency solar modules to boost the sector.

The intention to expand the solar power capacity in India started way back in 2010 when the UPA government announced the Jawaharlal Nehru National Solar Mission (JNNSM) for developing 20 GW capacity solar grids and two GW capacity off-grid solar applications.

The aggressive approach by the Central and state government agencies in identifying new investment avenues in this sector in the last five years saw outstanding projects investment expanding by around six times with nearly half of the proposed investment cornered by the top five states.

Company Roots :

SAHAAL GROUP OF COMPANIES was established on 30 March 2009, in Brunei under the name of Sahaal Power & Projects Sdn Bhd, (SPPSB), we Established ourselves at Export zone in Hong Kong on 18 December 2009, under Sahaal Power & Projects Limited (SPPL).

We are constantly striving to evolve & improve our solar products thus indeed leads itself to the revolution of green energy. We are passionate about providing solar power solution like Sales, Installation and Consultation of Commercials.

We deal with the best solar panel products such as Mo- no-Crystalline Poly / Thin film panels. We are as dedicated as a part in creating this world a better place for all. Entering a green future that's what PV panels wishing to address tomorrow's energy need today.
